### **ASCOT RESTARTS MINE DEVELOPMENT AT PREMIER NORTHERN LIGHTS**

**Vancouver, B.C., December 4, 2024** — Ascot Resources Ltd. (TSX: AOT; OTCQX: AOTVF) (“Ascot” or the “Company”) is pleased to announce that the Company has started mobilizing people and equipment to begin the underground development of the Premier Northern Lights mine (“PNL”). Following the close of the recent financing on November 18<sup>th</sup>, 2024, the Company has started erecting the head cover for the PNL portal and is moving people and equipment back to the site to begin the development of PNL. Procon Mining & Tunneling Ltd, the Company’s mining contractor together with Ascot personnel have started to implement the planning and mobilization to undertake the advance of the PNL portal to the Prew ore zone. On September 6<sup>th</sup>, 2024, the Company announced it was placing the operation on temporary care and maintenance, at this point the main PNL access ramp had advanced approximately 557 metres from the portal to the current face and required another 112 meters of ramp development to reach the first development headings into the Prew ore zone. The initial activities at site are to re-establish mine ventilation, undertake minor underground rehabilitation, reinstall underground infrastructure at PNL and then start the advance towards the Prew zone. The goal of the Company is to complete enough development to have both the PNL and Big Missouri mines operating when the mill is planned to restart in early Q2 of 2025.

Derek White, President and CEO, commented: *“We are excited to restart the development of PNL and progress toward mining the Prew zone so that we can have two mines as ore sources for feeding the mill. The Company has had a very difficult time since the announcement of the temporary care and maintenance, but that is behind us now and we are all focused on a successful restart and bringing Ascot back into production”.*

Qualified Person

John Kiernan, P.Eng., Chief Operating Officer of the Company is the Company’s Qualified Person (QP) as defined by National Instrument 43-101 and has reviewed and approved the technical contents of this news release.

## **Cautionary Statement Regarding Forward-Looking Information**

All statements and other information contained in this press release about anticipated future events may constitute forward-looking information under Canadian securities laws (“**forward-looking statements**”). Forward-looking statements are often, but not always, identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “estimate”, “expect”, “targeted”, “outlook”, “on track” and “intend” and statements that an event or result “may”, “will”, “should”, “could”, “would” or “might” occur or be achieved and other similar expressions. All statements, other than statements of historical fact, included herein are forward-looking statements, including statements in respect of the the ability of the Company to accomplish its business objectives and the intentions described herein and future plans, development and operations of the Company. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements, including risks related to the need for future waivers or forbearance agreements from the secured creditors of the Company; business and economic conditions in the mining industry generally; fluctuations in commodity prices and currency exchange rates; uncertainty of estimates and projections relating to development, production, costs and expenses, and health, safety and environmental risks; uncertainties relating to interpretation of drill results and the geology, continuity and grade of mineral deposits; the need for cooperation of government agencies and indigenous groups in the exploration and development of Ascot’s properties and the issuance of required permits; the need to obtain additional financing to finance operations and uncertainty as to the availability and terms of future financing; the possibility of delay in future plans and uncertainty of meeting anticipated program milestones; uncertainty as to timely availability of permits and other governmental approvals; the need for TSX approval, including pursuant to financial hardship exemptions, and other regulatory approvals and other risk factors as detailed from time to time in Ascot's filings with Canadian securities regulators, available on Ascot's profile on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) including the Annual Information Form of the Company dated March 25, 2024 in the section entitled “Risk Factors”. Forward-looking statements are based on assumptions made with regard to: the estimated costs associated with the care and maintenance plans; the ability to maintain throughput and production levels at the Big Missouri mine and the Premier Northern Lights mine; the tax rate applicable to the Company; future commodity prices; the grade of mineral resources and mineral reserves; the ability of the Company to convert inferred mineral resources to other categories; the ability of the Company to reduce mining dilution; the ability to reduce capital costs; the ability of the Company to raise additional financing; compliance with the covenants in Ascot’s credit agreements; and exploration plans. Forward-looking statements are based on estimates and opinions of management at the date the statements are made. Although Ascot believes that the expectations reflected in such forward-looking statements and/or information are reasonable, undue reliance should not be placed on forward-looking statements since Ascot can give no assurance that such expectations will prove to be correct. Ascot does not undertake any obligation to update forward-looking statements, other than as required by applicable laws. The forward-looking information contained in this news release is expressly qualified by this cautionary statement.
